PROFESSIONAL SUMMARY

Front-End Developer | React & Next.js Specialist | 5+ Years Experience Building Modern, Scalable Web Apps

SKILLS

- HTML / CSS / Javascript
- ReactJS / NextJS / VueJS
- Redux / Typescript
- PHP / Laravel
- UI / UX
- Initiative / Teamwork

EXPERIENCE

Web Developer Telia - Oslo
12/2019 - 08/2025

- Collaborated in large development teams on extensive projects, actively contributing to problem-solving, strategy meetings, and cross-functional communication through regular presentations and live demos.
- Designed and developed key solutions including customer dashboards for a major telecommunications company and advanced e-commerce features such as layered filtering, product bundling, secure payment systems, and user authentication.
- Enhanced and modernized legacy codebases by mastering new programming techniques, improving performance, and ensuring seamless integration with existing systems.

Web Developer Zeipt - Oslo
03/2019 - 08/2021

- Designed and implemented engaging user interfaces by creating custom icons, graphics, and scalable, responsive layouts in SCSS, ensuring cross-browser compatibility and optimal performance.
- Developed React.js web applications integrated with RESTful APIs, following best coding practices and collaborating closely with backend teams to align front-end and server-side functionality.
- Contributed to project planning and progress tracking through weekly meetings with the lead developer and CEO, reviewing milestones, addressing challenges, and strategizing upcoming development phases.

- Responsibility / Reliability
